

Press Release

Tuesday 07.01.2020

Statement

“Rebalancing the UK economy will require a connectivity revolution, with a comprehensive renewal of our public transport infrastructure across the country. Building HS2 forms a vital part of creating that new network.

If we are serious about raising productivity and prosperity across the country we need to have the confidence to take the big, bold steps required to deliver it.”

Lord Kerlake
Chair UK2070 Commission
